Driven by change: How the industry is adapting to new challenges

IAA Transportation 2022 | Hanover Germany | 20 September 2022

The last two years have been unprecedented with new challenges to manufacturing and significant interruptions of truck assembly. When will supply chains become more reliable and delivery times stabilize? How long will pent up demand for new vehicles remain high? Join us at IAA Transportation 2022 as we present our latest insights on global truck and bus market trends.
